EDUCATION

Not only do the trainees fulfill their roles within the College, they also bring a unique skillset and knowledge to each department that assists our current students and teachers. The traineeship itself provides an employment pathway for young people in our community.

HOW TRAINEESHIPS HELP TEACHERS

We provide a number of specialist services year round, all designed to ease the pressures all teachers face. Trainees often do the everyday tasks that free teachers to better spend their time developing programs and activities. Trainees can assist with administrative tasks and give hands-on support in and out of class, including carnivals, camps, excursions and school functions.

Schools across Australia - taking on the role of a host employer - play a critical part in empowering young trainees to make a real contribution to the workplace.

HOW DOES THE PROGRAM WORK?

We will work with you to recruit a trainee to support you and your school. Whether it be in the sports department, administration department, IT department or the classroom – AFL SportsReady can help! A traineeship is a paid, employment and education training program that gives young people a nationally recognised qualification. The program is flexible, with trainees able to start anytime of the year!

HOW THE PROGRAM SUPPORTS SCHOOLS

AFL SportsReady manages all trainee administrative services over the duration of a traineeship. As a trainees legal employer, we manage all trainee pay, leave, superannuation, education/qualification and WorkCover. We do it all, so teachers can get on with the job of teaching.

Over the past 10 years, we have seen just under half (44%) of the trainees who participate in the program go on to study education at university.

SUPPORTING THE NEXT GENERATION OF TEACHERS

Taking on trainees in schools is an important way to inspire more young people to pursue a career in teaching.

Trainees come through the program, they see how the school works, they learn the skills, they have a positive experience and then they are inspired to teach and these are the people that will continue to help the education system to thrive.
